

Mobility Parking Permit Scheme

CCS Disability Action issues mobility parking permits for those who meet the criteria as stated on our website under the heading Mobility Parking and also on the paper application form.

CCS is pleased to advise that applications for mobility parking permits completed by Nurse Practitioners are also accepted.

The electronic application process means the General Practitioner or a Nurse Practitioner complete the application form online, print a copy for the patient, who then can pay via internet banking, using the authorisation number printed, or send the form with payment to their nearest CCS Disability Action branch.

Practices using the electronic system need to register with CCS Disability Action by phoning their nearest branch. They will then receive an automated email providing a practice log in and temporary password, and a link to the website.

They will also be sent an easy to follow step by step guide to complete the application online.

CCS Disability Action recognises that by accepting applications from Nurse Practitioners; the system will be more accessible for people who need mobility assistance. CCS Disability Action is also certain the electronic application process will reduce paper work and be easier for everyone concerned.

If there are any queries, please do not hesitate to contact me on 0800 227 2255.
