

MASSEY UNIVERSITY
COLLEGE OF HEALTH
TE KURA HAUORA TANGATA

Kia ora, my name is Pauline Yorke, and I am currently a research student on the Master of Nursing program at Massey University. As part of my study, I am conducting a small-scale qualitative research project entitled:

What are the experiences and perceptions of New Zealand oncology nurses, in managing pain for adult patients in the hospital ward setting with cancer?

If you are:

- A registered nurse, working in New Zealand
- Currently employed in an oncology hospital ward setting
- Providing pain management to adult cancer patients in your care

I would like to invite you to participate in my research.

This will involve a semi-structured interview, of approximately 45 minutes duration. The interview will be conducted via a Zoom meeting at your convenience. I am interested in hearing your personal nursing experiences and perceived barriers and/or enablers to provide effective pain management for patients with cancer. Confidentiality of participant details and anonymity of experiences shared will be maintained.

Please contact me if you are interested or would like to know more information about this study. Interviews will take place from June 2023.
